

ILLiad CCC GetItNow Service Addon

 This addon is not compatible with versions of ILLiad older than 8.4.4.

Name	CCC GetItNow Service
Version	2.4
Author	IDS Project and Atlas Systems, Inc.
Description	The CCC GetItNow Service addon performs a price lookup and allows ordering an article using the CCC GetItNow Service.

Download

Download zip file: [CCCGetItNow.zip](#)

Requirements

- CCC Get It Now service account using the mediated workflow. (This account needs to be initiated separately from a standard CCC rights clearance account used in ILLiad's copyright clearing features.)
- ILLiad v8.4.4 and up
- ILLiad WebPlatform configured
- OCLC Web Services Key & Secret provisioned for the IFM Webservice

Configuration

Addon settings are configured in the Manage Addons form.

Name	Type	Description
Institute	String	College ID/Name
OrderSource	String	OrderSource for the CCC's GetItNow Service
CCCSendDirectlytoUser	Boolean	Send the article to the user directly through email. If not checked, the article will be sent to the ILL email account for processing through Odyssey.
ILLEmail	String	Email Address for ILL Staff.
BillToEmail	String	Email address to receive Get It Now invoices.
BillToIFM	Boolean	Uses OCLC IFM for payment of Get It Now requests.
IFMSpendingLimit	String	The maximum amount allowed for an IFM Get It Now request.
IFMSpendingLimitOverride	Boolean	Allows you to override the spending limit for individual requests that exceed the IFMSpendingLimit.
UseOdyssey	Boolean	Check if you prefer to receive articles by Odyssey. Your Odyssey address will be imported automatically (uncheck to receive by email).
DebugEnabled	Boolean	Specifies whether additional debug logging should be written to the ILLiad log file.
GetItNowURL	String	The GetItNow Base URL.
