

ILLiad Not Picked Up Reminders Addon

Name	Not Picked Up Reminders
Version	1.0.21
Author	Andrew Morgan
Description	Sends reminders to patrons to pick up items that have been sitting on the shelf. Also routes items to a "Never Picked Up" queue after they have been sitting on the shelf for a certain number of days (or past their due dates) so they can be returned to the lender.

Be sure to set the SystemManagerAddonInterval key in the Customization Manager to 1 to ensure it runs properly.

Configuration

Name	Default	Type	Description
EmailName	NPU-Reminder	String	Name of the e-mail template to use.
LibraryUseEmailName	Library Use Only Item	String	Name of the e-mail template to use for library use only items.
StartDay	3	String	Number of days an item has to be sitting on the shelf before these e-mails begin to be sent.
ReturnDays	21	String	Number of days an item stays on the shelf before being routed to "Never Picked Up" to be returned to the lending library. Leave blank if you don't want to use this option.
DaysFromDue	10	String	Number of days before the due date an item is routed to "Never Picked Up" to be returned to the lending library. Leave blank if you don't want to use this option.
RunTime	0800	String	Time addon runs. 24-hour format: for example, 1:15PM would be 1315. 8:00AM would be 0800.
Interval	Tuesday	String	Day(s) e-mails are sent. Format is a day of the week (Monday, Tuesday, etc.).
Exclusions		String	NVTGCs to exclude from Not Picked Up Reminders. Enclose in single quotes, and separate multiple NVTGCs with commas. Example: 'ex1', 'ex2', 'ex3'
