

ILLiad Electronic Delivery Reminder Addon

 This is a Server Addon and is installed in the Customization Manager.

Name	Electronic Delivery Reminder
Version	1.4
Author	Atlas Systems, Inc.
Description	The Electronic Delivery Reminder Addon sends another Notification Email for electronic files (PDF) not viewed.

 This addon determines if an electronic delivery message was sent based on an e-mail copy record existing with a subject of "Requested Item Delivered Electronically". If you have modified the values of either the *OdysseyElecDelEmailSubject* or *ElectronicDeliveryEMailSubject* customization keys the addon code will need to be modified to reflect your subject(s) for items delivered electronically.
